** Catholic East **

Where
Every Student
Shines!

My favorite part about teaching at Catholic East Elementary School is the family atmosphere created by the fact that it is a small school. I have taught here since 2004.

I also have three more years teaching experience. I received my Bachelor of Arts in Education degree from Viterbo University in La-Crosse, Wis.

I am married to my wonderful husband, Mark, and have a young son. I enjoy drawing, painting, walking, biking, running and photography.

Here at Catholic East, I can give each student the attention they need and get to know them on a personal level.

I believe that art education is an integral part of the learning process. The exploration, discovery, application and self-expression of art help develop the whole child and leads to spiritual growth.
